

PUBLIC NOTICE

The City of St. Louis (the "City"), through the City's Airport Authority, intends to file a PFC use application for one project at Lambert-St. Louis International Airport (the "Airport"). The application will not result in any additional PFC revenues or change the estimated collection end date. The City is seeking public comments on the following project:

Project No. & Title: 9.11 Taxiway Reconstruction (F and V)

Description: This project involves the removal and replacement of concrete and asphalt on Taxiway F. This project also includes the reconstruction of Taxiway V from Taxiway F to Runway 24.

Justification: Taxiway F is deteriorated from use and currently exhibits a Pavement Condition Index (PCI) of 55. A PCI of 55 or below indicates fair to poor condition of pavement. By the time the project is completed the pavement would have deteriorated to poor or very poor condition. Taxiway V is currently in very poor condition with a pavement condition index (PCI) of 22.

PFC Use Revenue: \$6,488,607

The Airport welcomes the public's comments and support for these projects, and will review all comments submitted in writing by no later than 30 days after the posting of this notice. Please address any questions or comments to:

Ms. Susan Kopinski
Airport Deputy Director - Finance & Administration
