Mr. William B. Korte
Assistant Director, Operations & Maintenance
Lambert-St. Louis International Airport
P.O. Box 10212
St. Louis, MO 63145

Dear Mr. Korte:

Lambert-St. Louis International Airport
St. Louis, Missouri
Revision to Airport Certification Manual

The revision to your Airport Certification Manual (ACM) has been reviewed and approved. Please distribute copies of the revision to the holders of your ACM listed on the Distribution List. Each existing ACM should be updated in accordance with this revision.

Sincerely,

A handwritten signature in cursive script that reads "Michael Mullen".

Michael Mullen
Lead Airport Certification Inspector

Enclosure

Memorandum

Lambert-St. Louis International Airport ®

TO: ALL RECIPIENTS OF THE AIRPORT CERTIFICATION MANUAL
FOR LAMBERT-ST. LOUIS INTERNATIONAL AIRPORT

FROM: RICHARD E. HRABKO, DIRECTOR

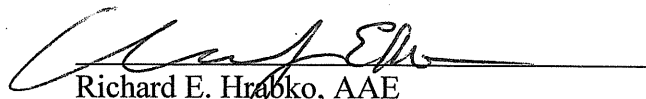

RE: AIRPORT CERTIFICATION MANUAL (ACM)

Pursuant to Federal Aviation Regulation Part 139, Subpart C, Section 139.201, you will find enclosed Amendment No. 8 of the Airport Certification Manual.

This amendment supersedes and replaces certain applicable portions of the current manual. Please take the time to insert the new pages, and distribute copies to the appropriate personnel in your company. This provides the guidance required to ensure compliance with Airport Certification specifications.

Be advised that the FAA's approval of the ACM establishes this document as an extension of F.A.R. Part 139, and provides the Airport with the authority to enforce compliance on a par with the regulation itself.

If you have any questions regarding this manual and how it pertains to your operation at Lambert, please do not hesitate to contact Mr. William B. Korte, Assistant Director, at 314-426-8028.

Richard E. Hrabko, AAE
Director
