Live fire training at Lambert set for Sept. 14- 16

The St. Louis Airport Rescue Firefighters (ARFF) will participate in a live-burn simulation as part of a training exercise on September 14, 15 and 16, 2009. The training will take place near the Lambert Airfield in a secured area off of Navaid Road.

The training exercise uses a Mobile Aircraft Trainer, a 50 foot fuselage capable of producing simulated fires including a fully engulfed aircraft. The mobile trainer is provided by the University of Missouri Fire and Rescue Training Institute, which conducts more than a dozen firefighting courses annually across the country.

The Federal Aviation Administration (FAA) requires annual aircraft rescue and firefighting training with live fires for airport emergency response personnel.

Lambert is the 30th busiest airport in the U.S. as ranked by Airports Council International-North America. Lambert serves more than 14 million passengers a year with an average of 280 daily departures to 70 national and international destinations. Lambert-St. Louis International Airport is an Enterprise Fund Department of the City of St. Louis. It is wholly supported by airport user charges. No general fund revenues are used for the operation, administration, promotion or maintenance of airport facilities.
