## “All-Star Bag Claim”

The Main Terminal Baggage Claim is fully operational with all new carousels in time for All-Star Week in St. Louis.

Lambert’s first renovation project in the Airport Experience Program has been completed. The Main Terminal’s new in-line baggage system is fully operational with all new conveyer belt systems, six new carousels and two over-size bag delivery units. The new system allows for quicker luggage load times, smoother rides and less jams. The new carousel units have a lower profile which opens up the views across the entire bag claim level. That means it’s easier for passengers to spot “Uncle Ed” and “Aunt Susanne” or find the best exit to catch a hotel shuttle. The entire system gets a big test this week with incoming baseball fans visiting St. Louis for the MLB All-Star Game and other events.
