Aug. 21, 2009

“Bio Boom”

A MotorWeek photographer films Ron Fuhrig in Lambert's new hybrid biofuel Boom Truck.

Lambert has led the pack for nearly two decades when it comes to using alternative fuels for its fleet of cars, trucks, buses and airfield equipment. Lambert will soon see national attention for its efforts on *MotorWeek*, a national automotive show which airs on the Speed Channel and PBS stations. Lambert will be featured in a series profiling successful alternative fuel programs across the country. St. Louis Clean Cities nominated Lambert to get the recognition. Part of the segment that was filmed this week will show Lambert's new hybrid biofuel boom truck in action. It's one of the first in the Midwest to be put into full service.
