- NOTES:
- The building restriction line (BRL) depicted on the ALP is 750' from the runway centerline which translates to a height of 35' above the runway centerline elevation perpendicular to the runway. In the area of the terminal the BRL is shown 810' which translates to an elevation of 44' above the runway elevation perpendicular to the runway.
  - Horizontal Datum is in a modified Missouri East Zone State Plane Coordinate System (SPCS) known as Lambert International Airport Modified State Plane Coordinate System (LAMSPCS).
  - All elevations are Above Mean Sea Level (AMSL) relative to the North American Vertical Datum of 1988 (NAVD88).
  - ARP Elevation = Airport Elevation = 617.9' Feet Surveyed.
  - DER 254' - See Declared Distance Note 5 of Sheet 8 (Data Sheet).
  - DER 65' - See Declared Distance Note 2 of Sheet 8 (Data Sheet).
