APPENDIX F PUBLIC INVOLVEMENT

This appendix includes all information related to the public involvement process that was undertaken for this Master Plan Update. This Master Plan Update was conducted concurrently with the 14 CFR Part 150 Noise Compatibility Study Update for the Lambert-St. Louis International Airport (Lambert Airport). The public outreach undertaken during the Master Plan included elements of the Part 150 Study, which followed and adhered to 14 CFR Part 150 guidance. In addition to the master planning elements the public outreach effort allowed opportunities for public review and comment during the development of the Noise Exposure Maps (NEMs) and the Noise Compatibility Program (NCP). For this Master Plan Study, this process included the following efforts, which are described in detail in the following sections of this Appendix:

- Section F.1 – Community Advisory Committee
- Section F.2 – Technical Advisory Committee
- Section F.3 – Public Information Workshops

Each of these efforts facilitated the active and direct participation of local officials, airline and airport tenant representatives, and members of the public and provided the opportunity for them to submit comments during the course of the Master Plan Update Study.

F.1 COMMUNITY ADVISORY COMMITTEE

A Community Advisory Committee (CAC) for the Lambert Airport 14 CFR Part 150 Noise Compatibility Study Update and the Master Plan Update Study was formed to serve as a sounding board and link to an array of stakeholders and interest groups within the aviation industry, the communities in the general airport vicinity, and key interest groups. The CAC was composed of representatives from federal, state, regional, and local agencies.

Throughout the conduct of the study, the CAC was advised of key technical data, and evaluation, and the overall study progress. The CAC provided comments to the FAA, client, and the consultant on the study data collection, analysis of alternative concepts, and the recommendations of the Master Plan Update.

CAC meetings were conducted on April 21, 2009; August 31, 2009; March 24, 2010; and September 9, 2010. The CAC meetings were held in the JoAnne Wayne Conference Room at Terminal 1 at Lambert Airport. The information provided to the CAC was also made available to the Technical Advisory Committee (TAC) and the general public on the project website and at Public Information Workshops (see Section F.2 *Technical Advisory Committee* and Section F.3 *Public Information Workshops*).

Section F.1 is divided into the following sections:

- CAC membership
- CAC meeting topics of discussion
- CAC meeting materials

COMMUNITY ADVISORY COMMITTEE MEMBERSHIP

Members of the CAC were invited from each of the local jurisdictions within the Study Area defined for the Master Plan and Part 150 studies. The following is the list of the CAC members:

City of St. Louis Airport Planning and Development Office

- Mr. Cornell F. Mays, Deputy Director, Planning & Development
- Mr. Dana L. Ryan, Airport Planning Manager
- Ms. Jan M. Titus, Noise Management

Lambert-St. Louis Airport Commission

- Mr. John Bales, Director, Airport Commission
- Mr. Bill Esterline, Commissioner, Airport Commission

Federal Agencies

- Mr. Todd Madison, Environmental Specialist, FAA Central Region, Airports Division
- Mr. Mark Schenkelberg, Airport Planner, FAA Central Region, Airports Division

Regional Agencies

- Mr. Jerry Blair, Director of Transportation Planning East-West Gateway Council of Governments

Elected Officials

- The Honorable Lawrence "Butch" Besmer, Mayor City of Woodson Terrace
- The Honorable Conrad Bowers, Mayor, City of Bridgeton
- The Honorable Timothy Britt, Chairman, Village of Pasadena Park
- The Honorable Keith Conway, Mayor, City of Kinloch
- The Honorable Charlie Dooley, County Executive, St. Louis County
- The Honorable Steve Ehlmann, County Executive, St. Charles County
- The Honorable Charles Ellis, Mayor, City of Greendale
- The Honorable Brian Fletcher, Mayor, City of Ferguson
- The Honorable Patrick Green, Mayor, City of Normandy
- The Honorable Gary Guittar, Interim Mayor, City of St. Ann
- The Honorable John Gwaltney, Mayor, Edmundson
- The Honorable Robert Hensley, Mayor, City of Velda City
- Mr. Jim Hess, Councilman, City of St. John
- The Honorable Garland Hollins, Chairman, Village of Norwood Court
- The Honorable Ann Knapp, Chairman, Village of Bellerive
- Ms. Andolora Marshall, Alderwoman, City of Kinloch
- Mr. Rick Massey, St. Charles County

Elected Officials (continued)

- The Honorable LaVaunt Maupin, Chairman, Village of Glen Echo Park
- The Honorable Jim McLaughlin, Mayor, City of Pasadena Hills
- The Honorable Viola Murphy, Mayor, City of Cool Valley
- The Honorable Joseph Noeth, Mayor, City of Flordell Hills
- The Honorable David Powell Sr., Mayor, Country Club Hills
- The Honorable Matt Robinson, Mayor, City of Hazelwood
- The Honorable Patricia Snider, Chairman, Village of Bel-Ridge
- The Honorable Myrtle Span, Mayor, City of Beverly Hills
- The Honorable Lee Taylor, Mayor, City of St. John
- The Honorable Everett Thomas, Mayor, City of Northwoods
- Ms. Christine Waitman, Councilperson, City of Bridgeton
- The Honorable Kyra Watson, Mayor, Berkeley
- The Honorable Patricia York, Mayor, City of St. Charles
- Ms. Carolyn D. Young, Trustee, Village of Pasadena Park

Local Business Community

- Mr. Richard Fleming, President, St. Louis Regional Chamber & Growth Association (RCGA)
- Ms. Susan Stauder, Vice President-Infrastructure & Public Policy, St. Louis Regional Chamber & Growth Association (RCGA)

CAC MEETINGS

Four CAC meetings were conducted throughout the Master Plan Update to inform and seek input from the CAC members on the study processes and findings of both the Airport Master Plan Update and the Part 150 Study Update. The consultant and airport staff participated in formal presentations to the CAC. The meetings provided opportunities for the members to participate in 'working sessions' to brainstorm potential solutions to the study issues. The following paragraphs summarize the presentations and discussions at each CAC meeting that were related to the Master Plan Update.

Prior to each meeting, invitations letters were sent to the CAC members. Copies of the invitation letters are included later in this section.

**CAC Meeting #1 – April 21, 2009
JoAnne Wayne Conference Room, Lambert-St. Louis International Airport
2:00 p.m. to 4:00 p.m.**

The first meeting of the CAC provided an overview of the Airport Master planning process, methodology, and the purpose. The presentation and discussion about Master Plan issues included the history, background, and recent trend in the aviation industry, both locally and nationally, that led up to this Master Plan Update. The presentation included a review of the forecast of aviation activity that was prepared to determine future facility requirements at Lambert Airport. This CAC meeting also included a discussion of potential collateral development areas and potential redevelopment options and strategies for these areas.

The presentation was followed by a "visioning session" in which CAC members were asked to provide input into the development of goals and objectives for the Lambert Airport and the role of the Airport in relation to the vision for the St. Louis Region.

Meeting attendance included 13 members of the CAC, staff from the FAA Airports Division, Lambert Airport staff, and consultant team. Meeting materials were distributed to members at the meeting and posted on the project website following the meeting. A copy of all meeting materials is provided later in this section.

CAC Meeting #2 – August 31, 2009
JoAnne Wayne Conference Room, Lambert-St. Louis International Airport
6:00 p.m. to 8:00 p.m.

This meeting included a review of the study methodology, aviation activity forecast, and the visioning session from the April 21, 2009 CAC meeting. Also discussed were the airfield capacity analysis; and the assessment of the existing terminal area, including existing terminal capacity, constraints, and opportunities for redevelopment.

Meeting attendance included 11 members of the CAC, staff from the FAA Airports Division, Lambert Airport staff, and consultant team. Meeting materials were distributed to members at the meeting and posted on the project website following the meeting. A copy of all meeting materials is provided later in this section.

CAC Meeting #3 – March, 24, 2010
JoAnne Wayne Conference Room, Lambert-St. Louis International Airport
6:00 p.m. to 8:00 p.m.

The third CAC meeting included an overview of the forecast sensitivity analysis; general facility requirements, including airline and airport maintenance facilities, airport rescue and fire fighting (ARFF) facilities, cargo facilities, fixed base operator (FBO) facilities; and terminal gate/space requirements and potential scenarios.

Meeting attendance included five members of the CAC, staff from the FAA Airports Division, Lambert Airport staff, and consultant team. Meeting materials were distributed to members at the meeting and posted on the project website following the meeting. A copy of all meeting materials is provided later in this appendix.

CAC Meeting #4 – September 9, 2010
JoAnne Wayne Conference Room, Lambert-St. Louis International Airport
5:30 p.m. to 7:00 p.m.

The fourth CAC meeting included a discussion of the terminal space requirements, short-listed terminal development alternatives, airfield concepts and passenger parking concepts. Meeting attendance included seven members of the CAC, staff from the FAA Airports Division, Lambert Airport staff, and consultant team.

RE: Master Plan Study and Part 150 Noise Compatibility Study
Community Advisory Committee Meeting
Lambert-St. Louis International Airport (STL)

Dear Chairman Knapp:

The kick off meeting for the Community Advisory Committee (CAC) for STL's Master Plan Study and Part 150 Noise Compatibility Update is scheduled for **Tuesday, April 21, 2009, from 2:00 p.m. to 4:00 p.m.** This meeting will be held in the **JoAnne Wayne Conference Room, Lower Level, Main Terminal**, at the Lambert-St. Louis International Airport.

The April 21st meeting will introduce you to the project team, the overall process for conducting the Master Plan and Noise Compatibility studies, provide an update on the status of the project data collection and analyses, and discuss your role in these studies. The majority of the presentation will focus on two aspects of these studies:

- 1) A detailed overview of the Aviation Activity Forecasts, including passenger demand and forecast operation levels, and
- 2) A summary of the Part 150 process with a discussion of the existing and future noise levels and the noise monitoring program.

We will also discuss the visioning process the airport has embarked upon; specifically Lambert's role in the community both today and in the future.

As always, your attendance and participation on the CAC is greatly appreciated. Please contact my office at 314-551-5029 by April 14th to confirm your attendance at the April 21st meeting.

Chairman Knapp

RE: Master Plan and Part 150 Noise Compatibility Studies
Community Advisory Committee Meeting
Lambert-St. Louis International Airport (STL)

Dear Mr. Bales:

The second meeting of the Community Advisory Committee (CAC) for Lambert Airport's Master Plan and Part 150 Noise Compatibility Studies is scheduled for **Monday, August 31, 2009, from 6-8 p.m.** This meeting will be in the same location as the first meeting, i.e., the **JoAnne Wayne Conference Room, Lower Level, Main Terminal**, at the Airport.

The August 31st meeting will focus on:

- Assumptions and results of a draft long-term aviation-demand forecast
- Noise exposure contours showing existing noise impacts and those projected for the year 2015
- An inventory of the existing facilities and future facility requirements for general aviation and cargo operations at Lambert
- An assessment of the existing airfield's ability to meet current and future demand
- Opportunities at, and constraints of, the current terminal and the previously proposed mid-field terminal site

We will also discuss the visioning process the Airport has embarked upon; specifically, Lambert's role in the community both today and in the future.

As always, your attendance and participation on the CAC is greatly appreciated. Please contact the Planning Department at (314) 551-5029 by August 24th to confirm your attendance at the August 31st meeting.

DIRECTIONS to the JoAnne Wayne Conference Room: Park in Main Terminal Garage; enter the lower level door of the Main Terminal; turn left; proceed straight to the JoAnne Wayne Conference Room, which will be on your right, near the police department.

Also, enclosed is a flyer describing the studies' public workshops scheduled for Sept. 1 and 2. Please feel free to attend either or both of these workshops, and print and distribute the flyer to any interested parties. We can also provide you hard copies of the flyer, if you so desire.

Thank you again for your participation on the CAC. If you have any questions, please do not hesitate to call.

Sincerely,

Cornell F. Mays, AIA

RE: Master Plan Study and Part 150 Noise Compatibility Study
Community Advisory Committee Meeting
Lambert-St. Louis International Airport (STL)

Dear Ms. Marshall:

The third meeting for the Community Advisory Committee (CAC) for Lambert-St. Louis International Airport's Master Plan and Part 150 Noise Compatibility Studies is scheduled for **Wednesday, March 24, 2010, from 6-8 p.m.** This meeting will be in the same location as the previous meetings, the **JoAnne Wayne Conference Room, Lower Level, Main Terminal (Terminal 1)**, at the Airport.

In keeping with the previous meetings, we will provide you with updates on both the Master Plan and the Part 150 Noise Compatibility Studies. For the Master Plan we will discuss the future passenger terminal requirements, the demand capacity, facility requirements and the analysis of the collateral development areas. For the Part 150 Study we will review the existing and future baseline noise contours and the current status of the 1995 Noise Compatibility Program measures. The consulting team will also present land use mitigation and land use control alternatives that are under consideration for inclusion in the Noise Compatibility Program update.

As always, your attendance and participation on the CAC is greatly appreciated. Please contact the Planning Department at (314) 551-5029 by March 17th to confirm your attendance at the March 24th meeting.

DIRECTIONS to the JoAnne Wayne Conference Room: Park in the Main Terminal Garage; enter the lower level door of the Main Terminal; turn left; proceed straight to the JoAnne Wayne Conference Room, which will be on your right.

Also, enclosed is a flyer describing the studies' public workshop scheduled for March 25th. Please feel free to attend the workshop, and print and distribute the flyer to any interested parties. We can also provide you hard copies of the flyer, if you so desire.

Thank you again for your participation on the CAC. If you have any questions, please do not hesitate to call my assistant Mary Moorehead @ (314) 551-5029.

Sincerely,

Mr. Jerry Blair
East-West Gateway Council of Governments
One Memorial Drive
Suite 1600
St. Louis, MO 63102

RE: Master Plan Study and Part 150 Noise Compatibility Study
Community Advisory Committee Meeting

Dear Mr. Blair:

The fourth meeting of the Community Advisory Committee (CAC) for Lambert-St. Louis International Airport Master Plan and Part 150 Noise Compatibility Studies is scheduled for **Thursday, September 9, 2010**, from **5:30-7 p.m.** This meeting will be in the same location as the previous assemblies, the **JoAnne Wayne Conference Room, Lower Level, Terminal 1**, at the Airport.

In keeping with the previous discussions, you will be provided with updates on both the Master Plan and the Part 150 Noise Compatibility Study. For the Master Plan, we will discuss information about future passenger terminal and parking concepts. The Part 150 Study will entail a review of land use measures. A light snack will be provided.

DIRECTIONS to the JoAnne Wayne Conference Room: Park in the Terminal 1 Garage; enter the lower-level door of the terminal; turn left; proceed straight to the JoAnne Wayne Conference Room, which will be on your right. Complimentary parking will be provided (ticket validation).

Your attendance and participation on the CAC is greatly appreciated. If you have any questions, do not hesitate to call my assistant, Mary Moorehead, at (314) 551-5029; and please contact her by September 2 to confirm your attendance at the next meeting.

Sincerely,

Cornell F. Mays, AIA
Airport Deputy Director
Planning & Development

Cc: Rhonda Hamm-Niebruegge – Director of Airports
Dana Ryan – Airport Planning Manager

F.2 TECHNICAL ADVISORY COMMITTEE

A Technical Advisory Committee (TAC) was established to provide guidance to the St. Louis Airport Authority (STLAA), the Federal Aviation Administration (FAA), and the Study Team regarding the Lambert-St. Louis International (Lambert Airport) Airport Master Plan Update and Part 150 Noise Compatibility Study Update. Meetings of the TAC occurred concurrently with the Community Advisory Committee (CAC). The membership of the TAC included representatives of Airport management, the FAA's Air Traffic Control organization, FAA Airports division, airport users, and land use management/planning staff from the jurisdictions surrounding Lambert Airport.

Throughout the study, the TAC was advised of key technical data, noise and land use alternatives being considered, and the overall study progress. The TAC advised the STLAA, the FAA, and the Study Team on the Airport Master Plan Update and Part 150 Noise Compatibility Study through a series of meetings. The TAC meetings provided a forum for members to comment and question the analyses and findings of the two studies.

The TAC meetings were conducted on August 31, 2009, April 25, 2009; March 24, 2010; and September 9, 2010. The TAC meetings were held in the JoAnne Wayne Conference Room at Terminal 1 at Lambert Airport. The information provided to the TAC was also made available to the Community Advisory Committee (CAC) and the general public at public information workshops.

Section F.2 is divided into the following sections:

- TAC membership
- TAC meeting topics of discussion
- TAC meeting materials

TECHNICAL ADVISORY COMMITTEE MEMBERSHIP

Members of the TAC were selected from each of the local jurisdictions within the Master Plan and Part 150 Study Area. The following is a list of TAC members:

City of St. Louis Airport Planning and Development Office

- Mr. Cornell F. Mays, Deputy Director, Planning & Development
- Mr. Dana L. Ryan, Airport Planning Manager
- Ms. Jan M. Titus, Noise Management

Federal Agencies

- Mr. Todd Madison, Environmental Specialist, FAA Central Region, Airports Division
- Mr. Mark Schenkelberg, Airport Planner, FAA Central Region, Airports Division
- Mr. Duane Fant, STL FAA ATCT

Federal Agencies (continued)

- Ms. Kathy Slater, Acting Air Traffic Manager, STL FAA ATCT
- Mr. Gene DeWeese, FAA TRACON
- Mr. William Switzer, Federal Security Director, Transportation Security Administration
- Mr. Matt Heindselman, Transportation Security Administration
- Ms. Debra Thomas, Stakeholder Quality Improvement Manager, TSA

State Agencies

- Mr. Joe Pestka, Administrator of Aviation, Missouri Department of Transportation

Missouri Air National Guard

- Lt. Col. Lane Endicott, Base Civil Engineer, Missouri Air National Guard
- Sgt. John Morrissey, Facility Manager, 131st Fighter Wing – Missouri Air National Guard

Regional Agencies

- Mr. Denny Coleman, President & CEO, St. Louis County Economic Council
- Ms. Jacqueline Wellington, Executive Vice President, St. Louis County Economic Council
- Mr. Douglas Rasmussen, St. Louis County Economic Council

County Officials

- Mr. Wayne Anthony, Director of Community Development, St. Charles County
- Mr. Glenn Powers, Director of Planning, St. Louis County

City Officials

- Mr. Earl Bradfield, AICP, Director of Planning, City of Hazelwood
- Mr. Matt Brandmeyer, Acting Planning Director, City of Bridgeton
- Mr. Matt Conley, City Administrator, City of St. Ann
- Mr. Bruce Evans, AICP, Director, Dept. of Community Development, City of St. Charles
- Mr. Michael Doi, Director of Economic Development and Planning, City of Berkeley
- Mr. Frank Hill, Planning Director, City of Bridgeton
- Mr. Richard Houchin, Public Works Director, City of Bridgeton
- Mr. Todd Hughes, Civil Engineer, City of Bridgeton
- Mr. Brian Peterson, City of Bridgeton Public Works Department
- Mr. James Phillips, Director of Public Works, City of St. John
- Ms. Rosalind Williams, Director of Planning and Development, City of Ferguson
- Mr. Michael Coleman, Resident Manager, Central Parking

Airport Tenants

- Ms. Karla Caroland, Station Manager, US Airways
- Mr. Bill Chapman, Operations Manager, Federal Express
- Mr. Rich Edwards, Planner - Boeing STL Site Services, The Boeing Company
- Mr. Steven Gill, Director of Site Services, The Boeing Company
- Ms. Lissa Hollenbeck, Vice President – Business Support Shared Services Group, The Boeing Company
- Mr. Lee Lancaster, General Manager, Signature Flight Support
- Ms. Sally Leible, President, Airport Terminal Services
- Mr. David Mann, American Airlines
- Mr. Don McCown, Southwest Airlines
- Mr. Glenn Miller, Managing Director, St. Louis Hub, American Airlines
- Mr. Thomas Schwartz, UPS Airport Contact, United Parcel Service
- Mr. David Smalling, Southwest Airlines
- Mr. Ed Trowbridge, Director of Hub Operations, TranStates Airlines
- Mr. Dominic Walker, AirTran Airways
- Ms. Bobbe Waters, Station Manager, AirTran Airways
- Mr. Bernie Wright, Senior Manager Site Services Planning, Engineering, Construction, Budgets, The Boeing Company

School Districts

- Dr. Michael Fulton, Superintendent, Pattonville Schools
- Mr. Bill Horsford, Director of Property Services, Ferguson-Florissant Schools
- Mr. Jeffrey Spiegel, Superintendent, Ferguson-Florissant Schools
- Mr. David Winslow, Director of Facilities, Pattonville Schools

Trade Groups

- Mr. John Balsiger, Midwest Regional Representative, National Business Aviation Association
- Mr. Thomas Browne, Managing Director of Airports, Air Transport Association
- Mr. Bob Dickens, Midwest Regional Representative, Aircraft Owners and Pilots Association

TECHNICAL ADVISORY COMMITTEE MEETINGS

Four TAC meetings were conducted throughout the study to inform and seek advice from the members on the process and findings of the concurrent Airport Master Plan Update and Part 150 Noise Compatibility Study Update. Formal presentations were made at the TAC meetings followed by open discussion. This format provided the opportunity for group discussions about airport issues, airport operations, and development strategies. The following paragraphs summarize the presentations and discussions at the TAC meetings that were related to the Master Plan Update.

Prior to each meeting notices were sent to each of the TAC members. Copies of the invitation letters are included later in this section.

TAC Meeting #1 – April 22, 2009

**JoAnne Wayne Conference Room, Lambert-St. Louis International Airport
9:30 a.m. to 11:30 a.m.**

Similar to the first CAC meeting, the first meeting of the TAC provided an overview of the Airport Master planning process, methodology, and the purpose. The presentation and discussion about Master Plan issues included the history, background, and recent trend in the aviation industry, both locally and nationally, that led up to this Master Plan Update. The presentation included a review of the forecast of aviation activity that was prepared to determine future facility requirements at Lambert Airport. This TAC meeting also included a discussion of potential collateral development areas and potential redevelopment options and strategies for these areas.

Meeting attendance included 29 members of the TAC, staff from the FAA Airports Division, Lambert Airport staff, and consultant team. Meeting materials were distributed to members at the meeting and posted on the project website following the meeting. A list of the attendees and a copy of all meeting materials is included later in this section.

TAC Meeting #2 – August 31, 2009

**JoAnne Wayne Conference Room, Lambert-St. Louis International Airport
1:00 p.m. to 3:00 p.m.**

This meeting included a review of the study methodology and the aviation activity forecast that was presented at the April 21, 2009 CAC meeting. Also discussed were the airfield capacity analysis; and the assessment of the existing terminal area, including existing terminal capacity, constraints, and opportunities for redevelopment.

Meeting attendance included 18 members of the TAC, staff from the FAA Airports Division, Lambert Airport staff, and consultant team. Meeting materials were distributed to members at the meeting and posted on the project website following the meeting. A list of the attendees and a copy of all meeting materials is included later in this section.

TAC Meeting #3 – March 24, 2010

**JoAnne Wayne Conference Room, Lambert-St. Louis International Airport
1:00 p.m. to 3:00 p.m.**

The third TAC meeting included an overview of the forecast sensitivity analysis; general facility requirements, including airline and airport maintenance facilities, airport rescue and fire fighting (ARFF) facilities, cargo facilities, fixed base operator (FBO) facilities; and terminal gate/space requirements and potential scenarios.

**LAMBERT-ST. LOUIS INTERNATIONAL AIRPORT
MASTER PLAN UPDATE**

Meeting attendance included 16 members of the TAC, staff from the FAA Airports Division, Lambert Airport staff, and consultant team. Meeting materials were distributed to members at the meeting and posted on the project website following the meeting. A list of the attendees and a copy of all meeting materials is included later in this section.

**TAC Meeting #4 – September 9, 2010
JoAnne Wayne Conference Room, Lambert-St. Louis International Airport
8:30 a.m. to 10:00 a.m.**

The fourth TAC meeting included a discussion of the terminal space requirements, short-listed terminal development alternatives, airfield concepts and passenger parking concepts. Meeting attendance included seven members of the CAC, staff from the FAA Airports Division, Lambert Airport staff, and consultant team.

Meeting attendance included 17 members of the TAC, staff from the FAA Airports Division, airport staff, and consultant team.

RE: Master Plan Study and Part 150 Noise Compatibility Study
Technical Advisory Committee Meeting
Lambert-St. Louis International Airport (STL)

Dear Ms. Leible:

The kick off meeting for the Technical Advisory Committee (TAC) for STL's Master Plan Study and Part 150 Noise Compatibility Update is scheduled for **Wednesday, April 22, 2009, from 9:30 a.m. to 11:30 a.m.** This meeting will be held in the **JoAnne Wayne Conference Room, Lower Level, Main Terminal**, at the Lambert-St. Louis International Airport.

The April 22nd meeting will introduce you to the project team, the overall process for conducting the Master Plan and Noise Compatibility studies, provide an update on the status of the project data collection and analyses, and discuss your role in these studies. The majority of the presentation will focus on two aspects of these studies:

- 1) A detailed overview of the Aviation Activity Forecasts, including passenger demand and forecast operation levels, and
- 2) A summary of the Part 150 process with a discussion of the existing and future noise levels and the noise monitoring program.

As always, your attendance and participation on the TAC is greatly appreciated. Please contact my office at 314-551-5029 by April 14th to confirm your attendance at the April 22nd meeting.

Directions to the JoAnne Wayne Conference Room: Park in the Main Terminal Parking Garage, enter the lower level door of the Main Terminal; turn left, proceed straight to the JoAnne Wayne Conference Room, which will be on your right, between the Post Office and the Airport Police Department. **Complimentary Parking will be provided.**

Ms. Leible
March 31, 2009

RE: Master Plan and Part 150 Noise Compatibility Studies
Technical Advisory Committee Meeting
Lambert-St. Louis International Airport (STL)

Dear Mr. Anthony:

The second meeting of the Technical Advisory Committee (TAC) for Lambert Airport's Master Plan and Part 150 Noise Compatibility Studies is scheduled for **Monday, August 31, 2009**, from **1-3 p.m.** This meeting will be in the same location as the first meeting, i.e., the **JoAnne Wayne Conference Room, Lower Level, Main Terminal**, at the Airport.

The August 31st meeting will focus on:

- Assumptions and results of a draft long-term aviation-demand forecast
- Noise exposure contours showing existing noise impacts and those projected for the year 2015
- An inventory of the existing facilities and future facility requirements for general aviation and cargo operations at Lambert
- An assessment of the existing airfield's ability to meet current and future demand
- Opportunities at, and constraints of, the current terminal and the previously proposed mid-field terminal site

As always, your attendance and participation on the TAC is greatly appreciated. Please contact the Planning Department at (314) 551-5029 by August 24th to confirm your attendance at the August 31st meeting.

Also, enclosed for your information is a flyer describing the studies' public workshops scheduled for Sept. 1 and 2.

DIRECTIONS to the JoAnne Wayne Conference Room: Park in Main Terminal Garage; enter the lower level door of the Main Terminal; turn left; proceed straight to the JoAnne Wayne Conference Room, which will be on your right, near the police department.

Thank you again for your participation on the TAC. If you have any questions, please do not hesitate to call.

Sincerely,

Cornell F. Mays, AIA
Airport Deputy Director
Planning & Engineering

RE: Master Plan Study and Part 150 Noise Compatibility Study
Technical Advisory Committee Meeting
Lambert-St. Louis International Airport (STL)

Dear Mr. Morrissey:

The third meeting of the Technical Advisory Committee (TAC) for Lambert-St. Louis International Airport's Master Plan and Part 150 Noise Compatibility Studies is scheduled for **Wednesday, March 24, 2010**, from **1-3 p.m.** This meeting will be in the same location as the previous meetings, the **JoAnne Wayne Conference Room, Lower Level, Main Terminal (Terminal 1)**, at the Airport.

In keeping with the previous meetings, we will provide you with updates on both the Master Plan and the Part 150 Noise Compatibility Studies. For the Master Plan we will discuss the future passenger terminal requirements, the demand capacity, facility requirements and the analysis of the collateral development areas. For the Part 150 Study we will review the existing and future baseline noise contours and the current status of the 1995 Noise Compatibility Program measures. The consulting team will also present land use mitigation and land use control alternatives that are under consideration for inclusion in the Noise Compatibility Program update.

Your attendance and participation on the TAC is greatly appreciated. Please contact the Planning Department at (314) 551-5029 by March 17th to confirm your attendance at the March 24th meeting.

DIRECTIONS to the JoAnne Wayne Conference Room: Park in the Main Terminal Garage; enter the lower level door of the Main Terminal; turn left; proceed straight to the JoAnne Wayne Conference Room, which will be on your right.

Thank you again for your participation on the TAC. If you have any questions, please do not hesitate to call my assistant Mary Moorehead @ (314) 551-5029.

Sincerely,

Cornell F. Mays, AIA

RE: Master Plan Study and Part 150 Noise Compatibility Study
Technical Advisory Committee Meeting

Dear Todd:

The fourth meeting of the Technical Advisory Committee (TAC) for Lambert-St. Louis International Airport Master Plan and Part 150 Noise Compatibility Studies is scheduled for **Thursday, September 9, 2010, from 8:30-10 a.m.** This meeting will be in the same location as the previous assemblies, the **JoAnne Wayne Conference Room, Lower Level, Terminal 1**, at the Airport.

In keeping with the previous discussions, you will be provided with updates on both the Master Plan and the Part 150 Noise Compatibility Study. For the Master Plan, we will discuss information about future passenger terminal and parking concepts. The Part 150 Study will entail a review of land use measures. A light breakfast will be provided.

DIRECTIONS to the JoAnne Wayne Conference Room: Park in the Terminal 1 Garage; enter the lower-level door of the terminal; turn left; proceed straight to the JoAnne Wayne Conference Room, which will be on your right. Complimentary parking will be provided (ticket validation).

Your attendance and participation on the TAC is greatly appreciated. If you have any questions, do not hesitate to call my assistant, Mary Moorehead, at (314) 551-5029; and please contact her by September 2 to confirm your attendance at the next meeting.

Sincerely,

Cornell F. Mays, AIA

F.3 PUBLIC INFORMATION WORKSHOPS

The workshop environment provided the public with an opportunity to participate in one-on-one discussions with Lambert Airport staff, the FAA planning and environmental staff, and the consultant team and to review the information and analyses from the Master Plan Update and Part 150 Study Update and provide comments on study findings. Three Public Information Workshops were over the course of the Master Plan Update.

The first two workshops were repeated on two back-to-back nights in two different locations. The third workshop was held on one night only due to low attendance at the previous two workshops. In addition to the Public Information Workshops two committees were formed to provide input into the Study, a Community Advisory Committee (CAC) and a Technical Advisory Committee (TAC) (see Section F.1 *Community Advisory Committee* and Section F.2 *Technical Advisory Committee* for information about the presentations and materials discussed in these committees).

The Public Information Workshops used an open house format. This format allowed the public to view each of the study displays and discuss the data collection, analyses, and findings directly with team members. Board-mounted graphics displayed the current issues and analyses completed to date for both the Master Plan Update and Part 150 Update studies.

Prior to each workshop, press releases were sent to local newspapers and advertisements were published in local newspapers which provided information regarding the time, date and place of each workshop, and described the purpose of the workshop, and provided contact information for the project. In addition, the dates and times upcoming workshop were also published on the project website. Copies of the published notices, registration forms, handouts, and presentation materials from each of these workshops are included at the end of this section.

Public Information Workshop #1

The first pair of Public Information Workshops was held at the following times and locations:

February 11, 2009

6:00 p.m. – 8:00 p.m.
Drummond Elementary School
3721 St. Bridget Lane
St. Ann, Missouri

February 12, 2009

6:00 p.m. – 8:00 p.m.
McCluer South Berkeley High School
201 Brotherton Lane
Ferguson, Missouri

**LAMBERT-ST. LOUIS INTERNATIONAL AIRPORT
MASTER PLAN UPDATE**

Members of the STLAA staff and the Consultant Team were available to present and discuss the information regarding the Master Plan and Part 150 studies. Each workshop allowed the public to visit individually with representatives of the consultant team and to attend a formal presentation, which was presented twice during the evening. The presentation included an introduction and an overview of the study process, community involvement, purpose and goals of the Master Plan and Part 150 Study, a status report regarding the progress and findings for each study, and a description of next steps. At the end of the presentation there was a question and answer period.

The exhibit area for the Master Plan Update contained board-mounted graphics which displayed the history and background of planning and development at Lambert Airport, the forecast of aviation activity, the methodology that would be used to analyze facility demand and capacity, and the approach to identifying potential collateral development opportunities. In addition to the presentation boards, a brochure-style handout was provided for the attendees to learn more about the Master Plan and Part 150 processes in greater detail.

Fifteen people attended this first pair of workshops. Five written comments were received during the Public Information Workshop from residents in the area with concerns about airport noise and/or requests to allow the placement of temporary noise monitoring equipment on their property.

Public Information Workshop #2

The second pair of Public Information Workshops was held at the following times and locations:

September 1, 2009

6:00 p.m. – 8:00 p.m.
Normandy Middle School
7855 Natural Bridge Road
Normandy, Missouri

September 2, 2009

6:00 p.m. – 8:00 p.m.
Hazelwood West Middle School
12834 Missouri Bottom Road
Hazelwood, Missouri

As with the first Public Information Workshops, members of the STLAA staff, the FAA, and the Consultant Team were available to present and discuss the Master Plan and Part 150 analyses. The Master Plan related workshop information included a summary of the aviation activity forecast, airfield capacity issues and demand projections, and terminal requirements, constraints, and future opportunities. These exhibits reflected information that had been presented earlier that week at the CAC and TAC meetings.

Twenty-two people attended the second pair of workshops. Two written comments were received during Public Information Workshop #2 related to airport noise levels and aircraft operations.

Public Information Workshop #3

The third Public Information Workshop was held at the following time and location:

March 25, 2010

6:00 p.m. – 8:00 p.m.

City of St. Charles City Council Chambers

City Hall, 200 North 2nd Street

St. Charles, Missouri

Public Information Workshop #3 was held in only one location due to the low attendance at the previous workshops. The format of the workshop remained the same as the first and second workshops. Members of the STLAA staff, the FAA, and the consultant team were available to answer questions. Information relevant to the Master Plan Update included information on the forecast sensitivity analysis and Terminal 1 and Terminal 2 gate requirements. The same information had been presented earlier that week at the CAC and TAC meetings.

Four people attended Public Information Workshop #3. No written comments were received during Public Information Workshop #3.

firms interested in providing financial advisory, legal counsel, or underwriting services related to the issuance of a short-term borrowing notes (TRANS). Sealed bid proposals in response to this request will be received by the City of St. Louis, Missouri Office of the Comptroller, 1200 Market St. Room 311, St. Louis MO 63103 until 3 p.m. CST Thursday, February 19, 2009. RFQs available by visiting the website <http://stlouis.missouri.org/and> choosing the link named "RFQ's, RFP's & Bids" or call Bev Fitzsimmons at (314)589-6035.

REQUEST FOR QUALIFICATIONS

The Partnership for Downtown St. Louis is seeking qualifications and proposals from interested marketing firms with prior experience in developing, guiding and/or advising a multi-faceted and strategic image marketing effort. This request for proposals and qualifications seeks development and direction of a marketing plan that will be strategic – yet incremental – in its approach while providing the framework for positively positioning and/or repositioning of the image of downtown St. Louis, its offerings and potential uses with the regional population.

The Partnership for Downtown St. Louis serves as the catalyst for investment, creating a regionally celebrated asset and nationally recognized downtown. The Partnership also manages the Downtown St. Louis Community Improvement District (The CID) that provides enhanced services to make Downtown St. Louis a cleaner,

St. Louis, Missouri 63103. A charge of \$20.00, not refundable or transferable shall be required from each prospective bidder for each set of Plans and Specifications desired.

The Metropolitan St. Louis Sewer District is an Equal Opportunity Employer.

LAMBERT AIRPORT PUBLIC WORKSHOPS

Lambert-St. Louis International Airport will seek public input about updates of its long-term Master Plan as well as its Noise Compatibility Study at public workshops in St. Ann and Ferguson, Feb. 11-12. An introductory public information workshop is scheduled for 6-8 p.m., Wednesday, Feb. 11, at Drummond Elementary School, 3721 S. Bridget Lane, in St. Ann. The same information will be presented in a second workshop from 6-8 p.m., Thursday, Feb. 12, at McCluer South-Berkeley High School, 201 Brotherton Lane, in Ferguson. The Master Plan Study will produce a well-defined framework to guide future airport development to cost-effectively satisfy regional aviation demand while considering potential environmental and social impacts. The Noise Compatibility Study will produce a balanced and cost-effective plan to address the existing airport noise exposure on surrounding communities and to reduce the potential noise exposure in the future. The workshops will feature several stations, each of which will focus on a specific portion of the studies. Attendees will be invited to walk among the stations at their leisure, asking questions and providing comments to members of Lambert's staff and the study team. Short overview briefings are scheduled to be given at 6:30 and 7:30 each evening. More information is available from: www.flystl.com/lambertstudies or (314) 551-5006.

REQUEST FOR BIDS

Sealed bids will be received by the Construction Manager, Alberici Constructors, Inc., at the Saint Louis Zoo Distribution Center on Wells Drive (Gate # 5), or by mail Attn: Patrick Williamson, Purchasing Manager, Saint Louis Zoo, One Government

PROFESSIONAL SERVICES

The St. Louis County Economic Council ("CEC") is issuing an open request for qualifications from professional services/consulting firms for various projects that will be initiated in 2009. CEC is seeking qualifications from firms with expertise that includes, but is not limited to, the following areas:

- Architectural/engineering design;
- Planning, landscape architecture and urban design;
- Engineering services (includes civil and mechanical, electrical and plumbing);
- Environmental consulting/engineering (assessment, remediation design and site remediation/cleanup services);
- Construction management/oversight;
- Land surveying;
- Economic and community development consulting (includes economic/market research and studies, incentives/tax analysis, appraisals and community assessment and outreach);
- Strategic planning (includes organizational development, SWOT analysis, long term goal planning);
- Real estate consulting (includes strategic facilities planning and space planning/programming);
- Property acquisition and relocation services;
- Marketing/communications (includes PR, electronic marketing news story development, ads);
- Legal in the areas of real estate, in particular related to property redevelopment; public finance transactions, including incentives analysis and public funding mechanisms/bond business finance;
- IT (includes selection, design and maintenance of CEC's base(s) to meet organizational reporting needs);
- Tax, auditing and accounting services;
- Fundraising; and
- Catering services including full-service and drop-off
- Mentoring services in the areas of (but not limited to) H

PUBLIC INFORMATION WORKSHOP
LAMBERT-ST. LOUIS INTERNATIONAL AIRPORT
MASTER PLAN STUDY UPDATE AND
PART 150 NOISE COMPATIBILITY STUDY
FEBRUARY 11-12, 2009

Welcome to the Public Information Workshop for the Master Plan Study Update and Part 150 Noise Compatibility Study at Lambert-St. Louis International Airport. Public comments are an integral part of the study process. This comment form is provided to receive your input and ensure that your concerns are considered during the conduct of this Master Plan Study and Part 150 Noise Compatibility Study. Please use this form to submit written comments, attaching additional pages if necessary. Either place the form in the comment box, provided here at the meeting, or mail to the address below. Please note that this form is pre-addressed on the reverse side if you wish to fold and mail this sheet with your comments.

Spoke with Scott Carpenter. Would like to have temporary noise monitoring for the Part 150 on his property.

Issue is reverse thrust and rotation at his property. I would welcome this study.

Let me know if you'd like to post a temporary noise monitor in my neighborhood - I've had previous monitors and would entertain sponsoring a location if needed for this current study.

LAMBERT AIRPORT PUBLIC WORKSHOPS

Lambert-St. Louis International Airport will seek public input about a draft forecast of long-term aviation traffic at the Airport and the projected impact of aircraft noise on surrounding communities at a public workshop from 6-8 p.m., Tuesday, Sept. 1, at Normandy Middle School, 7855 Natural Bridge Rd., Normandy, MO 63121 and at another, identical workshop from 6-8 p.m., Wednesday, Sept. 2, at Hazelwood West Middle School, 12834 Mission Bottom Rd., Hazelwood MO 63042. The same information will be presented at each session, including: assumptions and results of a draft long-term aviation-demand forecast; noise exposure contours showing existing noise impacts and those projected for the year 2015; an inventory of the existing facilities and future facility requirements for general aviation and cargo operations at Lambert; an assessment of the existing airfield's ability to meet current and future demand; and opportunities at, and constraints of, the current terminal. The public is invited to attend anytime during the workshop hours to talk with experts in informal small-group and one-on-one discussions. The sessions are part of the Airport's ongoing Master Plan and Noise Compatibility Studies begun last year. More information: www.flystl.com/lambertstudies or (314) 551-5006.

The same information will be presented at each session, including: assumptions and results of a draft long-term aviation-demand forecast; noise exposure contours showing existing noise impacts and those projected for the year 2015; an inventory of the existing facilities and future facility requirements for general aviation and cargo operations at Lambert; an assessment of the existing airfield's ability to meet current and future demand; and opportunities at, and constraints of, the current terminal. The public is invited to attend anytime during the workshop hours to talk with experts in informal small-group and one-on-one discussions. The sessions are part of the Airport's ongoing Master Plan and Noise Compatibility Studies begun last year. More information: www.flystl.com/lambertstudies or (314) 551-5006.

LAMBERT-ST. LOUIS INTERNATIONAL AIRPORT
MASTER PLAN STUDY UPDATE AND
NOISE COMPATIBILITY STUDY
SEPTEMBER 1-2, 2009

Welcome to the Second Public Information Workshop Sessions for the Master Plan and Noise Compatibility Studies at Lambert-St. Louis International Airport. Public comments are an integral part of the study process. This comment form is provided to receive your input and ensure that your concerns are considered during the conduct of this Master Plan Study and Noise Compatibility Study. Please use this form to submit written comments, attaching additional pages if necessary. Either place the form in the comment box provided here at the meeting, or mail to the address below. Please note that this form is pre-addressed on the reverse side if you wish to fold and mail this sheet with your comments.

we live on Winchester Blvd, Pasadena Hills. We are residents of 6 years - in the last 30+ days airlines (large SW/AA/etc have started) landing in a pattern that flies over our house - often closer to the street (winchester) they are low & loud in their approach.

our concern was that a new runway was opened or utilized as this has increased greatly - multiple planes - some 5-10 minutes apart at times

LAMBERT AIRPORT PUBLIC WORKSHOP

Lambert-St. Louis International Airport will seek public input on current and possible future methods for reducing noise impacts on surrounding communities at a public workshop from 6-8 p.m., Thursday, March 25, in the City Council Chambers, St. Charles City Hall, 200 N. 2nd St., 4th Floor. Specific topics to be highlighted: a review of the existing and future baseline noise exposure contours; a review of the current status of the 1995 Noise Compatibility Program measures and recommended updates to the program; a review of airport terminal space program scenarios, assumptions and results; analysis of collateral-land development potentials including general market analysis and specific attributes of each collateral development area; and airport demand capacity and facility requirements. The public is encouraged to attend any time during workshop hours. The study team and Lambert staff will be on hand for informal small-group and one-on-one discussions. No formal presentations are scheduled. The workshop is part of Lambert's Master Plan and Noise Compatibility Studies. More information: www.flystl.com and (314) 551-5006.
