ATTACHMENT A WORK PLAN

Introduction

The U.S. Department of Agriculture (USDA) is authorized to protect American agriculture and other resources from damage associated with wildlife. The primary authority for Wildlife Services (WS) is the Act of March 2, 1931 (46 Stat. 1468; 7 U.S.C.426-426b) as amended, and the Act of December 22, 1987 (101Stat. 1329-331, 7 U.S.C. 426c). Wildlife Services' activities are conducted in cooperation with other Federal, State and local agencies; private organizations and individuals.

The WS program uses an Integrated Wildlife Damage Management (IWDM) approach (sometimes referred to as IPM or "Integrated Pest Management") in which a series of methods may be used or recommended to reduce wildlife damage. IWDM is described in Chapter 1, 1-7 of the Animal Damage Control Program Final Environmental Impact Statement (USDA, 1994). These methods include the alteration of cultural practices as well as habitat and behavioral modification to prevent damage. However, controlling wildlife damage may require that the offending animal(s) are killed or that the populations of the offending species be reduced.

Purpose

To reduce wildlife hazards to aviation on City owned properties at the Airport.

Planned USDA, APHIS, Wildlife Services Activities

1. Two full time WS personnel to provide technical and operational assistance as needed in the urban Airport environment.
2. Additional part time personnel as needed.
3. Monitor wildlife use of the airfield and critical airspace on City owned properties at the Airport.

Effective Dates

The cooperative service agreement shall commence January 1, 2016 and shall expire on December 31, 2018.
