1. Title VI Policy Statement¹

St. Louis Lambert International Airport assures that no person shall on the grounds of race, color, national origin (including limited English proficiency (LEP)), sex (including sexual orientation and gender identity), creed, or age, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987 (PL 100.259), Section 520 of the Airport and Airway Improvement Act of 1982, and related authorities (hereafter, "Title VI and related requirements"), be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity that receives U.S. Department of Transportation (DOT) funding. Title VI also prohibits retaliation for asserting or otherwise participating in claims of discrimination.

St. Louis Lambert International Airport further assures every effort will be made to ensure nondiscrimination in all of its programs and activities, whether those programs are federally funded or not. The Airport Sponsor agrees, among other things, to understand the communities surrounding or in the flight path, as well as customers that use the airport. Anytime communities may be impacted by programs or activities the **St. Louis Lambert International Airport** will take action to involve them and the general public in the decision making process.

St. Louis Lambert International Airport requires nondiscrimination assurances, as prescribed by FAA, from each tenant, contractor, and concessionaire providing an activity, service, or facility at the airport. Assurances must be included in any related lease, contract, or franchise agreement between **St. Louis Lambert International Airport** and each tenant, contractor, and concessionaire, as well as in any similar agreements with their own sub-tenants and sub-contractors.

Sandra Dressel, Title VI Coordinator, available at **314-426-8094** and **SRDressel@flystl.com**, is responsible for overseeing the Airport Sponsor's compliance with Title VI and the point of contact for all airport Title VI matters and related responsibilities, including those required by 49 CFR Part 21.

Outreach to Affected Communities

Airport Public Relations ensures that notices for public meetings reach all segments of the impacted community. The Title VI coordinator will identify the effective media platforms to share announcement and notices. Announcements are made in social media, general circulation newspapers, community newspapers, email and broadcast. **Airport Public Relations** contacts leaders and representatives in Affected Communities³ directly to confirm effective media platforms to reach all Affected Communities and provide important feedback on translated materials. The office maintains records of all such notices and the efforts made to reach each of the Affected Communities.

St. Louis Lambert International Airport will create a detailed CPP by 2023. A copy of the plan will be available at <https://www.flystl.com/civil-rights/> ,

To ensure that the community is effectively informed of and able to participate in public hearings, **Airport Public Relations** includes public notices translated into appropriate languages, including for any language spoken by a significant number or proportion of the Affected Community population that has limited English proficiency (LEP). Such social media postings and notices will include direction for obtaining an interpreter, free of charge, for public hearings. 28 CFR § 42.405(d). See Limited English Proficiency (LEP) Section.

6. Community Statistics

Title VI regulations require Federal grant recipients to know their community demographics. See 49 CFR § 21.9(b). By knowing this information, the **St. Louis Lambert International Airport** will be able to identify, understand, and engage with communities. In doing so, the **St. Louis Lambert International Airport** needs to know about communities eligible to be served, actually or potentially affected, benefited or burdened by **St. Louis Lambert International Airport** program.

We have identified the following facts about the Affected Communities:

³ “Affected communities” means any readily identifiable group potentially impacted by an airport project or operation, such as the community immediately surrounding a project or a community in the flight path.

Low Income Communities⁴.

A low-income area is an identifiable group of persons living in geographic proximity, whose median household income is at or below the Department of Health and Human Services poverty guidelines. Pursuant to Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations,” **St. Louis Lambert International Airport** is collecting information about affected and potentially affected low-income communities. According to *United States Census Bureau American Community Survey Table S1701: Poverty Status in the Past 12 Months*, the overall poverty level for the Affected Communities is approximately 15.24%. The poverty rate remains high compared with the rest of the St. Louis County region. The poverty rates for the specific Affected Communities are as follows:

Affected Communities	Poverty Rate ⁶
Bel-Ridge	24%
Bellerive Acres	1.4%
Berkeley	32.1%

⁵ Low-income data must be collected to assist in our compliance with Environmental Justice requirements (not Title VI requirements). For example, this data will be utilized in our Community Participation Plan (CPP) to help ensure the meaningful involvement of low income communities in airport programs and activities.

Limited English Proficiency (LEP).

The goal of all language access planning and implementation is to ensure that **St. Louis Lambert International Airport** communicates effectively with limited English proficient (LEP) individuals. Effective language access requires self-assessment and planning. The next table lists non-English languages⁶ that are spoken in LEP households in the Affected Communities. The data source is the *United States Census Bureau American Community Survey Table B16001: Language Spoken at Home by Ability to Speak English.*

The threshold we have used for identifying the languages with significant LEP populations is the DOT LEP Policy Guidance safe harbor threshold, which is 5% or 1,000, whichever is less.⁷ The safe harbor for our community is 1,000. [Please refer to the end of this document to find data for all languages in our community.]

Beneficiary Diversity.

Demographic information is collected from airport customers, attendees at community meetings, and businesses seeking opportunities at the airport, through voluntary disclosures.

Description of Beneficiary Demographic Information Collection Methods

The Business Diversity Department (BDD) of the St. Louis Lambert International Airport utilizes the survey monkey software to collect demographic information when informational trainings and seminars are conducted. Also, BDD collects demographic data from minority and women owned businesses seeking opportunities at the airport when they contact the department with inquiries.

The information booth services in the airport collects demographic information from individuals seeking language assistance if they approach the information booths located in terminal 1 and terminal 2 of the airport.

⁸ Data should be kept up-to-date, but this plan does not need to be updated for incremental data changes during the Plan's 3-year period.

Staff and Advisory Board Diversity.

Demographic information is collected from airport program employees and members of planning and advisory boards, through voluntary disclosures.

Description of Employee and Advisory Board Demographic Information Collection Methods

- *Job applicants are asked to submit voluntary confidential demographic information at time of application through the City of St. Louis's job application website.*
- *Employees are asked to submit voluntary confidential demographic information upon hiring.*
- *Airport administration will send an email to all Commissioners asking them to voluntarily provide demographic information through a survey. Prospective commissioners are asked to submit voluntary confidential demographic information in their applications.*

7. Potential or Known Community Impacts

Projects or services receiving federal financial assistance have the potential to touch so many aspects of American life. Thus, in general, no **St. Louis Lambert International Airport** activity must have a discriminatory disparate impact on the basis of race, color, national origin (including LEP), sex (including sexual orientation and gender identity), creed, or age. This means that policies or procedures that have a disparate impact would require a well-documented substantial legitimate nondiscriminatory justification, summarized below. Impacts to protected communities must be avoided or minimized to the extent possible. No project with a discriminatory impact on protected communities will be undertaken.⁹

The following airport facilities are already in use or under construction and expected to be in use within the next 3 years:

Existing Airport Facilities	Affected Community Impacted by Operation of the Facility
Boeing Site Development for Aircraft Assembly and Flight Testing	Bellerive, Bel-Ridge, Berkeley, Breckenridge Hills, Bridgeton, Calverton Park, Cool Valley, Edmundson, Ferguson, Florissant, Hazelwood, Kinloch, Normandy, St. Ann, St. John, and Woodson Terrace

⁹ In order to carry out an alternative with a discriminatory impact, the airport sponsor must demonstrate that there was a substantial legitimate justification for the decision. The sponsor must also show that alternatives with less discriminatory impacts were meaningfully considered and rejected for legitimate reasons.

The following airport facility projects (including all alternatives) are in construction or expected to be in construction within the next 3 years:

Airport Facility Construction Projects	Affected Community Impacted by Construction of the Facility
Consolidated Terminal Program (CTP)	Bellerive, Bel-Ridge, Berkeley, Breckenridge Hills, Bridgeton, Calverton Park, Cool Valley, Edmundson, Ferguson, Florissant, Hazelwood, Kinloch, Normandy, St. Ann, St. John, and Woodson Terrace

We have analyzed the above existing facilities and facility construction projects for disparate impacts on the basis of race, color, or national origin (including LEP) in Affected Communities. The following have disparate impacts:

Facilities or Construction Projects with Disparate Impacts	Affected Community Impacted	Impact Can Be Eliminated?
None		

Justifications:

8. Limited English Proficiency (LEP)

Executive Order 13166

In creating a Language Assistance Plan, the **St. Louis Lambert International Airport** will consider the volume, proportion, or frequency of contact with LEP persons in determining the appropriate language assistance to provide.

In Community Statistics section, we identified the following languages spoken by LEP persons in St. Louis Metropolitan Statistical Area.

Description of Interpretation Assistance Processes

- Airport Public Relations maintains a list of multilingual employees, the languages they speak, and their associated office telephone numbers. The list indicates whether each employee is proficient to provide interpretation and/or translation services. The list will be updated annually and provided to all airport employees. Generally, these employee volunteers are available to assist members of the public with verbal real-time interpretation, during normal business hours. Any potential after-hours availability is based on the hours provided by our volunteers. Any interpretation interaction with a passenger or guest is tallied and collected as data by the information staff for data driven monthly and annual reports. The information is also filed.
- SLA information booth ambassadors utilize Language Access Multicultural People (LAMP) services to assist with foreign language translation. Information booth ambassadors will contact LAMP for over the phone interpreter services by dialing 888.501.4976. If the caller does not speak English information booth ambassadors say “Language” to determine how to proceed. Check to see if there is an information booth ambassador available that can translate, if not prepare to facilitate a conference call by:
